MainStreet double 4" in silver ash

# FEATURES

## Rigidform™ Technology

RigidForm 160 (rolled-over nail hem) technology stiffens siding for a straighter-on-the-wall appearance and has been tested\* to withstand wind load pressures up to 160 mph when installed with nails and 180 mph with staples.

\* Wind load rating per VSI wind speed calculation guidelines.

**DuraLock™** features an oversized rigid tear-drop shape which is substantially larger than many competitors' locks, providing secure installation.

The angular locking leg creates a secure, snap-fit installation, allowing for necessary expansion and contraction.

## 8 Product Styles, 14 Colors and 2 Finishes

Triple 3" Brushed Clapboard in Desert Tan	Double 4" Brushed Clapboard in Sterling Gray	Double 4" Woodgrain Clapboard in Cypress	Double 5" Woodgrain Clapboard in Silver Ash

## The STUDfinder™ Installation System

STUDfinder combines precisely spaced nail slots with indicator letters, designed for accurate and secure installation.

### STUDfinder for Accuracy

- Nail slots align with 16" on-center standards for stud spacing.
- Indicator letters help:
  - Determine location of studs
  - Ensure nails are positioned correctly
  - Ensure correct number of nails are used

With STUDfinder

Possible outcome without STUDfinder

## STUDfinder for Security and Performance

- Nailing to studs provides a strong and secure connection.
- Protects against blow offs from under nailing.
- Protects against buckling from over nailing.
- Helps avoid nailing into hazardous items between studs like plumbing or wiring.

STUDfinder... because beauty and performance start with a quality installation.
